NOTICE U. R. K. OF P.
All members of Tonopah company No. 4, Uniform Rank, Knights of Pythias, are requested to meet at the Pythian Castle Sunday afternoon at 3 o'clock or as soon thereafter as convenient, for the purpose of drilling. Movements for Memorial day parade and competi-

tive drill will be executed. The members will secure swords and belts at the armory and then proceed to the Elks hall where drill will be conducted.
By order of company commander
O. E. HAMPTON,
Sgt. Rec.

HID HIS MONEY IN DUMP AND THEN FORGOT SPOT
A young man of German descent walked into town a few days ago from Yerington, cashed in a check for \$350 and visited on of the local emporiums of chance. He increased his roll by \$65 and then went out with his blankets to take a nap. He claims to have selected a nice soft spot near the Ophir mine and before lapsing into dreamland dug a hole and cached his \$415. His slumber being disturbed by an aggravated brown taste he started out in search of a refreshing drink. Upon his return he de-

cided to draw upon the bank, but search as he might he could not locate the gold mine he planted. All day yesterday this unfortunate young man was combing the sides of the road with a rake from the Nevada brewery on the east to Meacham's lumber yard on the west, but up to date has not unearthed the bunch of double eagles. He has now come to the conclusion that he did not select the famous Ophir for his bed after all and the burning question of the hour is, "where did I snooze, or the mystery of the golden fleece." Friends of the unfortunate young man say they saw him at the north end near the grade and active prospecting will be inaugurated in that part of the lead at once.—Virginia Chronicle.

DIVIDEND OF 4 CENTS A SHARE IS DECLARED
ROUND MOUNTAIN MINING CO.
POSTS ANOTHER DISTRIBUTION OF PROFITS.

The Round Mountain Mining company has declared its ninth consecutive quarterly dividend of four cents a share, amounting to \$34,550.07, making the total dividends of the company \$293,733.20. The disbursement will be made on June 25, to stockholders of record June 20.

It is reported that the most important surface strike in the history of the company has been made by the new vertical shaft that is going down 900 feet east of the main workings, it being understood that the shaft at a depth of 130 feet is in pay ore, and it is expected that it will continue to at least 200 feet, which point will probably be reached within fifteen days.

This work is opening entirely new country and will furnish a large tonnage to the mill. Developments in other portions of the mine are said to have increased the ore reserves to a very large extent. The mill is now handling about 130 tons a day, but this is to be increased to 150 tons.
